

EWE supplies electricity for German EADS sites Supply to commence in 2010

Oldenburg, Germany, 27.8.2009. The Oldenburg-based company EWE AG has been awarded a major electricity supply contract. EWE and the aerospace company EADS have signed an electricity supply contract for all EADS offtake points in Germany. EWE secured the contract following a lengthy bidding process, bearing testimony to the company's efficiency and flexibility. The supply contract pertains to a total volume of approximately 550 GWh p.a. This is equivalent to the amount of electricity used by about 160,000 households in a year. The plants to be supplied also include all EADS subsidiaries, such as the Premium Aerotec GmbH sites in Nordenham and Varel. The supply contract with EADS expires in 2012. "This contract proves that we are on the right track with our innovative products, flexibility and customer focus," stressed Christian Haferkamp, Head of the Energy Sales Department at EWE.

EWE ranks among Germany's largest energy services companies and is headquartered in Oldenburg in the federal state of Lower Saxony. The group's business activities comprise electricity, natural gas and water supply, energy and environmental technology as well as gas transmission and trade, telecommunication and information technology. EWE thus offers one-stop classic and innovative services. The EWE network infrastructure is characterized by high technical quality, security of supply and economically efficient operation. EWE was quick to develop its core competences to operate complex networks and to expand its comprehensive know-how in remote control and regulatory systems into a future-focused multi-service range of products. In addition to its activities in its home region between the Ems, Weser, and Elbe rivers, EWE continues to expand its operations in Eastern Germany, Poland and Turkey. In 2008, the EWE Group employed around 5,300 people and recorded sales of €5.3 billion.
